

Study wealth management in the heart of private banking & boost your career

If you want to advise and manage high net worth client accounts or prepare yourself for a top-level Ph.D. program, then the **Master in Wealth Management** is for you.

A two-year program accredited by CAIA and SFI, it is based on modules combining traditional financial market courses such as portfolio management with law courses like banking regulation. Our curriculum also offers courses in new and multidisciplinary fields, e.g. sustainable finance and neuro-finance. You can tailor the program to suit your career aspirations by choosing from among the different modules and a wide range of elective courses. You can also earn credits while gaining industry experience through internships programs.

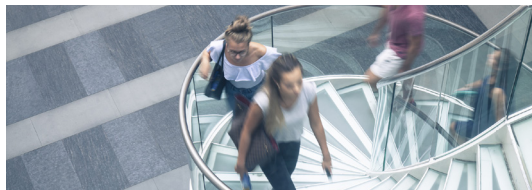

The quality of teaching is guaranteed by an exceptional faculty that combines **cutting-edge academic research and industry knowledge** and by various teaching methods that encourage learning by doing.

More information & application details are available at gsem.unige.ch/master/wealth-management & [our video presentation](#)
